Profile

I am an Android Software Engineer with over three years of experience in commercial application development for the Android platforms, **utilized in financial processing** and **service monitoring.**
Mainly I use Android Framework, Kotlin and Java.
I also have experience with C++, Python, JavaScript and HTML/CSS.

Some of my apps.: NFP for Mars · Acquiring · E-Prescription

Work Experience

2021 - 2024
Financial Services Agency | Full-time

Android Software Engineer

Duties: Software development for android devices: smartphones, tablets, and point-of-sale terminals (Sunmi, Landi, Evotor).

- Developed 4 major applications
- Made 5 MVPs to prove business ideas
- Gave presentations for customers
- Provided technical support training
- Worked on internal manuals
- Gained more than 500 new businesses

Main projects:
• «NFP: Social Services», an app for social and medical workers that is used in 8 cities and communities.
Implemented: · Bank Card reader (Android NFC, POS pin-pads) · Logging and Crash Report · Mifare Card reader (Android NFC and USB NFC) · POS SDKs features · UI with Jetpack libraries · GraphQl Requests (Hasura) · QR code generator and scanner · Bluetooth printing · 8 flavors for different clients ·

• «Social Certificates», a POS-terminal app that allows shops to receive a Digital Certificate as a mean of payment.
It was used by over 1100 businesses for over $5.6 million worth of transactions.
Implemented: · Payment operations with pin-pads (Pax, Kozen, Ingenico) · Jetpack UI · POS SDK Fiscalization (Evotor) · Robust Retrofit REST API ·

• «Digital Prescriptions», a POS-terminal client for pharmacies that allows to release digital prescriptions.
Implemented: · UI with Jetpack libraries · Several Retrofit REST APIs of different e-prescriptions providers · Barcodes reader (QR, DataMatrix) · POS SDK Commodity picker, basket editor and medicine payment (Evotor)

• «NFP: Registration», an app for generating identifications from Mifare Card, Bank Card and QR-code.
Implemented: · Compose UI · Tools for Mifare Classic Card Personalization ·
